## PROFESSIONAL PROJECTS

---

### • RectoQ Software Solutions | The Forex Websites

Description: Developed a modern, interactive, and fully responsive showcase platform for The Forex Websites using Next.js and a suite of advanced frontend libraries. The primary goal of the project was to display the company's demo trading websites in an engaging and visually appealing manner.

### • CCPEX.io | Website

Description: Designed and developed the official website for CCPEX, an AI-driven cryptocurrency trading exchange, focused on showcasing their innovative Organized Intelligence (OI) technology and automated trading strategies.

### • RectoQ Software Solutions | IOTrades.io

Description: Designed and developed the official marketing website for IOTrades, a cutting-edge trading platform catering to forex, crypto, binary options, and proprietary trading firms. The website's purpose is to showcase IOTrades' white-label trading solutions and attract entrepreneurs and firms looking to launch their own brokerage with minimal effort.

### • LaunchFXM | Website

Description: Developed the official website for LaunchFXM, a leading service provider specializing in end-to-end solutions for launching forex brokerage firms. The website is designed to showcase the company's expertise in regulatory licensing, MT4/MT5 platform setup, fintech tools, marketing, and business consulting.

### • Activus Industrial Design & Build LLP | Website

Description: Designed and developed a comprehensive corporate website for Activus Industrial Design & Build LLP, a company specializing in end-to-end industrial project solutions. The website showcases their services, including architectural design, engineering, procurement, construction, testing, commissioning, and validation.

- **Activus Industrial Design & Build LLP | HR Portal**

Description: Developed an HR Portal for Activus Industrial Design & Build LLP to streamline the recruitment process by enabling role-based access for Super Admin and Recruiters, including candidate management, access control, and interview workflows.

- **DeviTex | Website**

Description: Developed a responsive website for DeviTex, a textile clothing brand specializing in sarees. Users can explore product collections and easily send inquiries for sarees and other offerings.
